INDESTRUCTIBLE SCREENING INFORMATION

Thank you for your interest in screening “Indestructible.” We are very happy to support your efforts. To that end, I have enclosed both the 53-minute and 2-hour versions for your personal viewing and to share with other patients and staff members.

The cost is negligible for a public screening. A donation is requested for the film owners and producers, ALS Film Fund, of \$250 USD minimum for single or multiple showings in each locale. Screenings at theaters or in private locations can be facilitated through Rebecca Rush. Contact Information for ALS Film Fund:

If you choose to use the 53 minute version, ALS Film Fund has a contract with Journeyman Pictures for all broadcast rights. Any plans to show the film on television must be negotiated through them. Screenings at theaters or in private locations of the 53 minute version can be facilitated through Rebecca Rush. Contact information for Journeyman in the event you want to schedule the film on TV:

Fax: +44 (0) 208 972 9100
Email: news@journeyman.tv

Publicity for either version is encouraged through newspapers, television and radio to increase attendance. Involving the ALS population in your community is also recommended. We are happy to help facilitate attendance by contacting any ALS patients we know in your area.

“Indestructible” has been shown in many other countries at international film festivals and both public and private screenings. The 2-hour version is preferable if there are no time constraints.

Almost everyone who has seen the film feels a heightened sense of awareness about the needs of patients and a deeper understanding of the human condition both for themselves and others. I am confident the reception will be positive and I look forward to hearing your response. Please let us know the dates and venue of your screening(s) at your earliest convenience. Many thanks for your participation.
